\*Please notice that the dimensions of this panel have a tolerance of +/- 3 mms

## FEATURES

This acoustic panel is made from acoustic polyurethane M1-rated foam, and holds a fabric cover, available in 8 different colors allowing a wide range of colors to match room interiors. The fabric covers the frontal and lateral faces of the panel and has a metallic support structure. Vicoustic's fabric finish helps achieve a professional and creative surface, much sought after in general architectural spaces. The Flat Panel M1 FS has been specially developed to be used in restaurants, offices and meeting rooms, combining acoustic efficiency and an elegant appearance.

It is designed to perform mainly on medium and high frequencies, providing a cost-effective solution for ceilings and walls. Its M1 (European) fire rated foam makes it highly suitable for use in a variety of public spaces.

## APPLICATIONS

Conference and Teleconference Rooms, Public Spaces, Auditoriums, Restaurants, etc.
