

PALMER CABLE TESTERS

AHMCT 8 CABLE TESTER

The AHMCT 8 tests the most critical cables on the stage itself and flags up whether they are functioning or not, both visibly via LEDs and audibly via a buzzer. This makes it the perfect tool for engineers — both in the workshop and on stage. The Pro AHMCT is operated simply, intuitively and safely via a single rotary switch on the device. The sturdy metal housing withstands even tough on-stage demands. The standard kit comes with two test probes for carrying out fast and simple continuity tests on various cables or installations.

- Solid metal housing
- Powered by a 9-V block battery
- Applications: DIN 5-pin, XLR, RCA, 6.3 mm Jack, Banana plug, Speakon 4-pin
- Additional continuity tester with measuring probes
- Optical display and buzzer

AHMCT XL CABLE TESTER

As well as standard audio and video cables, the Palmer Pro AHMCT XL also tests the major data cables (USB, RJ45). The test sequence can be either automated or manual, meaning the Pro AHMCT XL from Palmer is as ideal for the layperson as it is for the engineer. The sturdy metal housing with practical handle effortlessly withstands even the toughest on-stage demands. Yet despite its impressive array of functions, it remains sufficiently compact to fit in any professional workshop or well-equipped tool case.

- Solid metal housing
- Powered by 2 x AA batteries
- Tests DIN 8-pin, DIN/Midi 5-pin, XLR, RCA/Cinch, Jack 3.5 mm, Jack 6.3 mm, Speakon (4 and 8-pole), S-Video
- Additional testing option for data cables (RJ45, USB-A to USB-B)
- Optical display
- Automated test sequence
