

N-VOL30-W

100 volt, 30 watts volume control,
white

N-VOL30 is a 100 volt, 30 watts volume control. This series of 100 volt mono volume controllers has been developed especially to fit the coverplates, the timeless design, warm character and soft lines of Belgian Niko controllers.

Add that little extra touch of refined class to your home or business interior.

The N-VOL30 series are protected against overload and the 24 volt priority sets volume on maximum. They are easily mountable and fit into any interior.
