Advantages of Patented QtPro Sound Masking Systems

- Powered by direct-field Quiet Technology developed to reduce acoustic interference.
- Delivers uniform sound masking by projecting *from* not *through* the ceiling.
- Reduces the need for expensive construction or sound blocking materials.
- Each emitter can be installed in less than 15 minutes and in any ceiling type.
- Easy to retrofit into existing workspaces.
- GreenSpec listed and the most energy efficient sound masking system available.

Qt® Emitters

Small, plug and play individually adjustable emitters, are the backbone of the QtPro sound masking system.

Nearly 180 degrees of sound dispersion provides uniform, unobtrusive masking.

Can be installed in any ceiling surface including acoustic ceiling tile, beam, drywall, metal, and wood.

Emitters are plenum-rated, UL-listed, and comply with UL 2043.

Qt® Active Emitters

Provides high sound level and a broader frequency range than standard Qt Emitter.

A good choice when paging and background music are needed.

Similar footprint and cabling infrastructure to standard Qt Emitter.

Qt® Room Control

Easy to adjust the sound masking levels in patient rooms, private office space, and conference rooms.

The mounted control unit features 6 discrete volume level selections including off.

Designed to work with any QtPro sound masking system.

Can be added to an existing QtPro sound masking installation.

Cambridge Sound Management

Cambridge Sound Management, Inc., the world's largest provider of sound masking solutions, manufactures QtPro and DynasoundPro sound masking systems to help organizations across multiple industries protect speech privacy, reduce noise distractions, and increase workplace productivity. Cambridge Sound Management's proprietary sound masking technology works by emitting a uniform, barely perceptible background sound at the frequencies of human speech. Cost effective and easy to install, their sound masking, office paging, and background music systems are deployed in hundreds of millions of square feet of space throughout the world including commercial organizations, healthcare facilities, financial services, government agencies, and educational institutions.
