R6400 / R6600 Wall Mounts

450mm/18" & 600mm/24" Deep Wall Mount Rack Enclosures

With their solid high end construction, the R6400 & R6600 Series are a high quality solution for all of your audio/visual & IT requirements at an affordable cost.

Ideal for smaller installations or to house systems, those Rack enclosures ally convenience and aesthetic with its multiple features and its beautiful finish.

Many Standard and Custom Colors

Black White Blue Green Red Gold Silver

Vented Design

Designed with vents and hole patterns on the top to mount thermal management systems, as well as vents on top and base sides. It also comes with an optional vented front door.

Integrated Cable Management System

The R6400 & R6600 Series comes standard with an integrated cable management bar to help you keep your installation nice and tidy.

Threaded Rack Rails

No more clip nuts. All our racks come with threaded rack rails marked units in order to ease the installation of any of equipment. Available with M6 or 10/32 threads.

Adjustable Mounting Depth

The adjustable front and rear rack strips allow to change the mounting depth of the enclosure in order to adapt to any type of material.

Removable Side Panels

The R6400 & R6600 Series comes with removable side panels with an easy slam lock opening and closing system.

Lockable Front Door and Side Panels

The front door comes with a key lock system to avail any unwanted tempering. Optional side panels key locks also available.

1U Knockout Panels

Several 1U knockout panels on the top, base and bottom of the rack for cable managements or to set up fitted or patch panels.

Optional Castors and Adjustable Feet

An optional base with M8 threaded holes is available in order to easily mount castors or adjustable feet on the R6400 & R6600 Series enclosures.
