

SMB6V-W

Speakerbox with bracket, vol.contr.
white, 6 watts 100 volt

The SMB6V is a functional cabinet speaker with mounting bracket. It has a 5" paper woofer, and is equipped with 100 volt power transformer with power taps on 1.5 - 3 - 6 watts.

This speaker offers an excellent sound quality and a no-frills design with a ABS plastic housing and metal grille. The SMB6V is equipped with a volume controller. It is discretely hidden under the logo shield, which avoids unwanted tampering with the volume setting.

Thanks to the mounting bracket, the speaker can be installed under an angle on ceilings, walls, columns,... This SMB6V speaker is ideal for professional use of background music and paging in public buildings, schools, parking garages, supermarkets,... Even in situations where the budget is vital, we put you in pole position!
