

EXPERIENCE TRUE-COLLABORATION™

Getting actual work done during meetings has never been easier.

**WIRELESS
COLLABORATION
SOLUTIONS**

Meet Smarter

Kramer VIA delivers TRUE-Collaboration™ in conference rooms, boardrooms and huddle spaces. Connect wirelessly with your own device, collaborate efficiently and engage effectively with everyone in the meeting.

VIA's Highlights

- Wi-Fi or LAN login
- iOS, Android, Mac and Windows support
- Full HD 1080p60 video streaming
- Simple user interface
- 1024-bit encryption, dynamic room codes
- 4K-UHD output for VIA Collage
- Multi-language support

VIA PAD

Now it's easier than ever to share what's on your PC or laptop with everyone in the meeting.

Using capacitive and proximity technologies, VIA PAD lets you instantly show your screen on the main display. Just plug it in and present. No driver download.

Features and Benefits

Wireless Connection

Connect wirelessly with your own device. No dongle needed.

Enable Control

Give a participant control over a presenter's MAC® or PC laptop

iOS Mirroring

Show any content from your iOS device on the main display

Chat

Send an instant message to another participant

Full HD Video Streaming

Share uninterrupted full HD wireless video streaming (up to 1080p60) and photos

Third Party Apps *

Join the meeting remotely with third-party apps, such as Microsoft Office®, Skype®, GotoMeeting®, Lync®, and WebEx®

Cloud Based

Drag and drop files to the Cloud to share instantly with other users

View Main Display *

View the main display on your own device

File Sharing

Share any size file with any number of participants

Web Browser *

Open any browser to display content from a Web site

Whiteboard

Annotate, illustrate and edit shared documents: touch-screen compatible

HDMI Input *

Connect any HDMI source (camera, DVD, Blu-ray™) and present it on the main display

4K-UHD Output *

Present 4K-UHD content to compatible 4K-UHD displays

* VIA Collage only

VIA Collage

Fully-featured collaboration solution for any meeting space

VIA Collage offers meeting participants advanced collaboration tools for a wide range of meeting spaces. With any laptop or mobile device, users can wirelessly share any size file, stream uninterrupted full HD video (up to 1080p60), annotate or illustrate with a whiteboard and chat with other users.

VIA Collage can show (in 4K-UHD) up to six user screens on one main display or up to 12 screens on two displays. Users can also view the main display on their own device. VIA Collage includes iOS mirroring for MacBook, iPad and iPhone.

Remote users can easily join the meeting and collaborate in real time with embedded 3rd-party video conferencing and office apps.

VIA Connect PRO

For collaboration in mid-sized meeting rooms and huddle spaces

VIA Connect PRO offers an ideal collaboration solution for huddle spaces and mid-sized meeting rooms. With any laptop or mobile device, meeting participants can share any size file, annotate or illustrate with a whiteboard, chat with other users, and stream full uninterrupted HD video (up to 1080p60).

VIA Connect PRO can wirelessly show up to four user screens on a single main display and features iOS mirroring for MacBook, iPad and iPhone.

VIA Site Management

VIA Site Management is a software application that lets administrators easily view and manage all VIA devices within the same network. You can check the status of each device, remotely maintain and configure devices and see who is logged in. You can also perform VIA software updates.

Collaborate Wirelessly Anywhere

VIA makes presenting, collaborating and sharing content easier and more efficient for any size meeting room or huddle space.

What VIA users are saying ...

“We are getting more demand for BYOD, and the VIA Collage fits that niche nicely. The encrypted signal is also a major plus.”

John Delmont, Technical Sales, VMI

“Solves the biggest problem associated with BYOD”

Tim McCarthy, UCC Account Manager, Spinitar
