

Exciter X 32

Exciter

Transform any surface into a speaker – with amazing sound quality. The exciter X 32 impresses with its very good bass reproduction. It can be glued horizontally to many different surfaces using the self-adhesive film already applied. Thus, mirrors, furnitures, ceilings, cabinets, etc. can be used as a speaker. Also you can screw the Exciter vertically for example on kitchen cabinets, etc.. The imagination knows no limits. Whether kitchen fronts, sides of cabinets or baseboards – even glass doors, mirrors, projection screens and whiteboards can be turned into speakers by the WHD Exciter.

Note: The values for sound pressure level (SPL), frequency range and transmission angle depends on the material used.

Technical Datas	X 32-4	X 32-8	X 32-16
Load Rating / Music Power	6/15 W	6/15 W	6/15 W
Impedance	4 Ohm	8 Ohm	16 Ohm
Transformer	-	-	-
SPL 1W/1m	-	-	-
Frequency Range (-3 dB)	-	-	-
Transmission Angle 1/2/4/8 kHz (-6 dB)	-	-	-
dimensions (mm)	d70x26 mm	d70x26 mm	d70x26 mm
Material	-	-	-
