

## How to connect IR-Emitter to a Biamp Control System

Connect white striped side of the cable to TX/IR  
(never use TX-1, which cannot send IR).  
Connect black side of the cable to GND:

## IR-Emitter placement on device (Blueray, Set top box, Apple TV, etc):

Place IR-Emitter on  
IR receiver on device.

**Clear adhesive layer placed toward device**  
(Replace, if necessary, with supplied 2-sided tape)
